Eco Cosmetics has developed a new range of sunscreen products that make it especially easy for you to care for and protect your skin. By means of a fine spray mist the spray tube enables an even application on body and face. The sun spray leaves a pleasant, protective and caring film on your skin. We abstain from using alcohol and other aggressive ingredients so that it is also possible to use the product on sensitive skin.

* Ingredients from organic farming

The mineral-based protection complex against sunlight protects your skin against harmful UVA and UVB rays. Additionally, we add nourishing ingredients such as pomegranate seed* and raspberry* oils to our products. Pomegranate* protects your skin against moisture loss and assists regeneration. raspberry oil* nourishes the skin, keeping it smooth and offers protection against pr It is even said to offer a natural UV protection. Vegetable vitamin E binds oxygen atoms of free radicals and slows down oxidation processes on the skin.

ECO Sunspray sensitive SPF 30 und SPF 50

Mineral protection against sunlight,
with pomegranate* and raspberry oil*
Intensive protection against harmful UV rays
thanks to a mineral
protection complex against sunlight

- . Carbon neutral produced
- . No Nanotechnology
- . Immediate sun protection
- . Mineral sun protection, 100% natural
- . Free of synthetic sunscreen filters
- . Water resistant
- . Ingredients of natural origin
- . Free from synthetic dyes, perfumes and preservatives

Special characteristics:

Sunspray suitable for body and face.

Specially developed for quicker application and a pleasant skin feeling.

The formulation without alcohol and allergens from fragrances is also ideal
for sensitive combination skin.

Directions:

Apply before sunbathing. For body and face.

Can be applied very easily, evenly and without leaving any residue.

Even in the shade use a sunscreen product with a sufficiently high
sun protection factor.

Applying sunscreen repeatedly does not prolong the period of protection.

May stain clothing.

Consider your individual skin type

Balanced UVA/UVB protection with a ratio of 1-3

ECO Sunspray SPF 50 with Q10, toned

Mineral protection against sunlight,
with pomegranate* and raspberry oil*
Natural mineral sunscreen which
lends the skin an instant light summer tone.
Raspberry oil* combined with Q10
offers active cell protection that prevents
premature skin ageing!

ECO Sunspray SPF 50+ Kids

Mineral protection against sunlight,
with pomegranate* and olive oil*
Delicate children´s skin needs the best possible
sunscreen. Protect your young ones with
SPF 50+. By doing so you also give their skin
a portion of valuable plant-based nourishing oils.
Many children love spray on sun screen products.
Application is much faster meaning more time
remains for play.

- . Vegan
- . No PEG, SLS and paraben
- . No genetically modified organisms (GMO)
- . No petroleum, paraffin and silicone derivatives
- . Alcohol-free
- . Harmless for coral reefs, aquatic organisms and waters
- . Not tested on animals (according to the law)
- . Blends of natural essential oils activate the senses

Important note:

Apply generously and repeatedly before sunbathing, especially after
spending time in water. Applying in small amounts will reduce the protective
effect. Do not expose children to the sun during peak sunshine hours.
Sunburns must be avoided under all circumstances. For babies and young
children use protective clothing and sunscreen products with a high
sunscreen factor (more than 25). Sunscreen products with a high sunscreen
factor do not, however, offer complete protection against UV-rays.
Do not stay too long in the sun even while using a sunscreen product.
Excessive exposure to the sun poses a serious health risk.
Do not expose infants and young children to direct sunlight.
